

AGENDA

Wednesday, June 21, 2023 Open Session: 1:00 p.m. Administration Building 16320 Everhart Drive, Weed, California 96094 ***** (530) 938-3281

CALL TO ORDER: LSCSD Roll Call: Directors: Chandler _____ Cupp _____ MacIntosh _____ Mitchell _____ Thompson _____

PLEDGE OF ALLEGIANCE:

<u>PUBLIC COMMENTS</u>: This is an opportunity for members of the public to address the Board on subjects within its jurisdiction.

Those who wish to speak on a matter that does not appear on the agenda, may do so during this Public Comment period. State your name and address your comments to the Board. Each individual will be limited to three minutes. The Public Comment portion of the meeting will be limited to thirty minutes (total time). If needed, time limits may be extended with concurrence of the Board. No person may speak twice to the same item. The Board may ask questions but may not act during the Public Comments portion of the meeting, except to direct staff to prepare a report, or to place the item on a future agenda.

1. CONSENT ITEMS:

- A. Approval of Minutes: Regular Meeting May 17, 2023
- B. Ratification of Disbursements: March 1, 2023 through May 31, 2023
- C. Budget Comparison: FY 2022/23
- D. LAIF Quarterly
- E. Department Written Reports
 - 1. Fire Department
 - 2. Police Department
 - 3. Sewer Department.
 - 4. Water Department

DISCUSSION / REPORTS: ACTION ITEMS:

- 2. Financial Audit (Larry Bain)
- 3. Amended Budget 22/23

STAFF COMMENTS:

BOARD MEMBER COMMENTS:

<u>ADJOURNMENT</u>: The next LSCSD Regular Meeting is scheduled to be held on July 19, 2023 1:00 p.m. at the Administration Building.

Supplementary documents and other materials distributed to the District board after their agenda packets have been distributed to the members may be viewed at the District office and obtained at the meeting.

Regular Meeting Wednesday, May 17, 2023 Open Session **UNAPPROVED MINUTES**

CALL TO ORDER AND ROLL CALL: 1:00 PM

Lake Shastina Fire Department

16309 Everhart Drive Weed CA 96094

For the Month of May Lake Shastina Fire Department responded to a total of 31 calls for service. These calls included:

- 15 Medical Aids
- 8 Public Assists
- 1 Vehicle Fire
- 2 Traffic Collisions
- 3 wildland fires
- 1 Structure Fires
- 1 flooding

Monthly News:

I am very excited to announce that LSFD has received another AFG FEMA Grant. The grant will provide us with 1 full time staffed position for 4 years, 5 sets of structure fire gear, training funding, and advertisement material to help draw in volunteers to our department. Total amount received over the next 4 years will be \$354,750. We are currently in the interview process for potential candidates for the Fire Captain position.

We have been actively recruiting members to our department. We have 5 new sleepers that have either moved in or will move in between now and October 1st. Most will be living with us while they attend the fire academy and 1 will be taking the paramedic program. This is great news for our response times on emergency calls for the remainder of 2023 and the beginning of 2024.

LAKE SHASTINA POLICE DEPARTMENT

William N. Bullington Chief of Police 16309 Everhart Dr., Weed, CA 96094 (530) 938-2226

Lake Shastina Sewer Department

To: Lake Shastina CSD Board

From: RODNEY VILLA, Maintenance Leadman

Meeting Date: June 21,2023

Subject: Board Report for May 2023

Notable Activity:

- We refreshed about 10 USAs in the burn scar for both water and sewer.
- We cleaned B-111, B-108, B-116, and B-103 with the 'Jetter'.
- Both of the 'Apexes' were greased and inspected.
- The aerator in pond #2 had something stuck in the propeller.
- We did the 100% hook-up on a septic tank failure at 17602 Grizzly ct.

Item 1 E4

6-1

Lake Shastina Water Department

To: Lake Shastina CSD Board

From: RODNEY VILLA : Maintenance Leadman

Meeting Date: June 21,2023

Subject: Board Report for May, 2023

Notable Activity:

- We did a 98% water hook-up on Lotz ct.
- About 20 old water meters were changed out for new ones.
- There was a water lateral leak on Gilbert that was repaired and another very deep one at the Golf resort.
- The 300 amp breaker at Well #3 went bad and had to be replaced.
- The lawns at the Fire/Police station, Clinic and Admin. were mowed three times.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Lake Shastina Community Services District Weed, California

Qualified Opinion

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information which comprise the basic financial statements of Lake Shastina Community Services District as of and for the fiscal year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, except for the effect of the matter discussed in the basis for qualified opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and fund information of the Lake Shastina Community Services District as of and for the fiscal year ended June 30, 2022, and the changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Qualified Opinion

During the fiscal year under audit the District received from Cal Fire/OES over \$57 per hour for strike team firefighters and \$62 per hour for strike team captains. The district paid strike team firefighters \$35 per hour and strike team captains \$38 per hour. The difference in pay was intended to be used to pay firefighters to backfill pre-scheduled station shifts for strike team members who were away on the emergency response. The District was unable to provide support for the amount paid to firefighters to backfill the strike team member shifts resulting in a scope limitation. The result of this scope limitation is a potential understatement of payroll liabilities and an understatement of payroll expense of approximately \$251,805. The liability and expenditure have not been recorded in these financial statements, and therefore we do not give an opinion on strike team payroll.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Lake Shastina Community Services District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Lake Shastina Community Services District's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Lake Shastina Community Services District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Lake Shastina Community Services District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters

Required Supplementary Information

The Lake Shastina Community Services District has not presented the Management Discussion and Analysis that accounting principles generally accepted in the United States has determined is necessary to supplement, although not required to be part of, the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB), who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion is not modified as a result of the omission.

Accounting principles generally accepted in the United States of America require that the budgetary comparison for the General fund, Police Fund and Fire Fund on pages 27-29 the District's Employees' Retirement System Schedule of the District's Proportionate Share of the Net Pension Liability and the Retirement System Schedule of the District's Contributions on pages 30-31; be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB), who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES-GOVERNMENTAL ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2022

Net change in fund balances - total governmental funds	\$ 444,386
Amounts reported for governmental activities in the statement of activities differs from the amounts reported in the statement of revenues, expenditures and changes in fund balances because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the costs of those assets are allocated over their estimated useful lives as depreciation expense or are allocated to the appropriate functional expense when the cost is below the capitalization threshold. This activity is reconciled as follows:	
Cost of assets capitalized	406,209
Depreciation expense	(68,344)
Sale of assets	-
Changes in proportions from the pension do not effect expenditures in the	
governmental funds, but the change is adjusted through expense in the	
government-wide statement.	135,804
Deferred revenue reported in the statement of activities do not provide current financial resources and, therefore, are not reported in governmental funds.	(15,703)
governmental funds.	(15,705)
Compensated absences reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported in	
governmental funds.	 (6,626)
Change in net position of governmental activities	\$ 895,726

LAKE SHASTINA COMMUNITY SERVICES DISTRICT Notes to Financial Statements June 30, 2022

Note 1: Summary of Significant Accounting Policies

The basic financial statements of Lake Shastina Community Services District, (the "District") have been prepared in conformity with accounting principles generally in the United States of America ("U.S. GAAP") as applied to governmental agencies. The Governmental Accounting Standards Board ("GASB") is the acceptable standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

The District was form in 1978 and is located in Siskiyou County, California. The District operated under a five member Board of Directors and provides services including police and fire protection, the collection and treatment of wastewater and provides water to the residences within the District's boundaries.

The financial reporting entity, as defined by the GASB, consists of the primary government, the District, organizations for which the primary government is financially accountable, and any other organization for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

B. Basis of Accounting

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned or, for assessment revenues, in the period for which levied. Expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligible requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when both measurable and available. Measurable means the amount of the transaction can be determined and available means collectible in the current period or soon enough thereafter to be used to pay liabilities of the current period. Resources not available to finance expenditures and commitments of the current period are recognized as deferred revenue or as a reservation of fund balance.

Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt, as well as compensated absences and claims and judgments are recorded only when payment is due. General capital acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and capital leases are reported as other financial sources.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities.

C. Basis of Presentation

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the District. These statements include the financial activities of the overall government. These statements distinguish between the governmental and business-type activities of the District. Governmental activities, which normally are supported by taxes, assessments and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties.

LAKE SHASTINA COMMUNITY SERVICES DISTRICT Notes to Financial Statements June 30, 2022

Note 1: Summary of Significant Accounting Policies (Continued)

C. Basis of Presentation (Continue)

The statement of activities demonstrates the degree to which the program expenses of a given function are offset by program revenues. Program expenses include direct expenses, which are clearly identifiable with a specific function. Program revenues include 1) charges paid by the recipient of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

When both restricted and unrestricted net position are available, unrestricted resources are used only after the restricted resources are depleted.

Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for each fund category – governmental and proprietary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in separate columns.

The District reports the following major governmental funds:

<u>General Fund</u> - This fund accounts for all the financial resources not required to be accounted for in another fund. This fund consists primarily of general government type activities.

<u>Special Revenue Funds</u> – These funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. The District has three special revenue funds; the police fund, the fire fund and the COPS Grant fund.

The District reports the following major enterprise funds.

<u>Water and Sewer Funds -</u> account for the operation of the District's water and sewer utilities. Activities of these funds include administration, operation and maintenance of the water and sewer systems and billing and collection activities. The Funds also accumulate resources for, and payment of long-term debt principal and interest. All costs are financed through charges made to utility customers with rates reviewed regularly and adjusted if necessary to ensure the integrity of the Funds.

D. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

E. Cash and Cash Equivalents

For the purpose of the statement of cash flows, the District considers cash and cash equivalents as short term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates.

Restricted cash and unrestricted pooled cash and investments held by the District are considered cash equivalents for purposes of the combined statement of cash flow's because the District's cash management pool and funds invested by the District possess the characteristics of demand deposit accounts.

LAKE SHASTINA COMMUNITY SERVICES DISTRICT Notes to Financial Statements June 30, 2022

Note 1: Summary of Significant Accounting Policies (Continued)

F. Accounts Receivable

Accounts receivable are recorded for services, provided to individuals or non-governmental entities that are billed but unpaid. Proprietary Fund receivables are shown net of allowance for uncollectible accounts.

G. Inventory of Supplies

The inventory of supplies account is valued at cost and is determined on a first-in, first-out basis, which approximates market.

H. Prepaid Expense

Prepaid expenses are payments made to vendors in the current accounting period for costs applicable to future accounting periods.

I. Fixed Assets

Capital assets, recorded at historical cost or estimated historical cost if actual historical cost is not available, are reported in governmental activities column of the government-wide financial statements. Contributed fixed assets are valued at their estimated fair market value. Capital assets include land, buildings and building improvements and equipment. Capital assets are defined by the District as assets with an initial, individual cost of more than \$2,500.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Depreciation is recorded in the government-wide financial statements on the straight-line basis over the useful life of the assets as follows:

Assets	Useful Life
Subsurface sewer lines	40-50 years
Sewage collections facilities	10-40 years
Sewage disposal facilities	40 years
Water System	5-35 years
Building	20-40 years
Equipment	5-20 years
Vehicles	5-10 years

J. Compensated Absences

District employees are granted vacation and sick time in varying amounts based on classification and length of service. Upon termination or retirement, the District is to pay 100% of the vacation time accrued and sick time will be paid based on the tier system the District has established for sick time earned. For employees who retire from the District, accrued sick leave at the time retirement will be added to years of service for pension purposes.

K. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 1: Summary of Significant Accounting Policies (Continued)

L. Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) which will only be recognized as an outflow of resources (expense/expenditures) in the futures. The change in proportion and differences between the District contributions and proportionate share of contributions, and resources in the government-wide statement of net position. District contributions subsequent to the measurement date are being amortized in the current fiscal year as provided by accounting pronouncement GASB Statement No. 71. The change in proportion and difference between District contributions and proportionate share of contributions is amortized over the estimated service lives of pension plan participants. In addition to liabilities, the statement of net position includes a separate section of deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and would only be recognized as an inflow of resources (revenue) at that time. The District's proportionate share of the net difference between projected and actual earnings on pension plan investments is reported as deferred inflows of resources in the government-wide statement of net position.

M. Net Position

The government-wide and proprietary fund financial statements utilize a net position presentation. Net position are categorized as invested in capital assets (net of related debt), restricted, and unrestricted.

- Invested in capital assets, net of related debt Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- Restricted net position Consists of net position with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. These principally include restrictions for capital projects, debt service requirements and other special revenue fund purposes.
- Unrestricted net position All other net position that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

N. Fund Balances

As prescribed by GASB Statement No. 54, governmental funds report fund balance in classifications based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. As of June 30, 2022, fund balances for governmental funds are made up of the following:

- Nonspendable fund balance includes amounts that are (a) not in spendable form, or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example: inventories, prepaid amounts, and long-term notes receivable.
- Restricted fund balance includes amounts that can be spent for specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of resource providers.

Note 1: Summary of Significant Accounting Policies (Continued)

- N. Fund Balances (Continued)
- Committed fund balance includes amounts that can only be used for the specific purposes determined by a formal action of the District's highest level of decision-making authority, the Board of Directors. Commitments may be changed or lifted only by the District taking the same formal action that imposed the constraint originally (for example: resolution and ordinance).
- Assigned fund balance comprises amounts intended to be used by the District for specific purposes that are neither restricted nor committed. Intent is expressed by (1) the Board of Directors or (b) a body (for example: a budget or finance committee) or official to which the Board of Directors has delegated the authority to assign amounts to be used for specific purposes.
- Unassigned fund balance is the residual classification for the General Fund and includes all amounts not contained in the other classifications. Unassigned amounts are technically available for any purpose. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes, that fund would report a negative unassigned fund balance.
- O. Implementation of New GASB Pronouncements:

GASB Statement No. 87

In June 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 87, *Leases* (GASB Statement No. 87), to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It also establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Implementation of this Statement had a significant effect on the District's financial statements for the year ended June 30, 2022.

A. Lessor

The District acts as the lessor for real property used for health care and medical related services and for a cell tower lease. The District recognizes leases receivable and deferred inflows of resources in the financial statements. Variable payments based on future performance of the lessee or usage of the underlying asset are not included in the measurement of the lease receivable.

At the commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflows of resources are initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflows of resources are recognized as revenue over the life of the lease term in a systematic and rational method.

Key estimates and judgments include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

Note 2: Cash and Investments

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as cash and investments. Unless otherwise dictated by legal or contractual requirements, income earned or losses arising from the investment of pooled cash are allocated on a quarterly basis to the participating funds and component units based on their proportionate shares of the average quarterly cash balance.

The District maintains "restricted cash and investments".

Cash and investments at June 30, 2022, consisted of the following:

Cash on hand	\$ 311
Deposit accounts	412,701
Investments (LAIF)	2,032,413
Total cash and investments	\$ 2,445,425

A. Investments Authorized by the California Government Code and the Entity's Investment Policy

The table below identifies the **investment types** that are authorized for Lake Shastina Community Services District by the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address **interest rate risk, credit risk** and **concentration of credit risk**. This table does not address investments of debt proceeds held by bond trustees that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District investment policy.

	Maximum	Percentage	Investment
Authorized Investment Type	Maturity	of Portfolio	in One Issuer
Investment pools authorized under CA			
Statutes governed by Government Code	N/A	None	\$40 million
U.S. Treasury Obligations	5 years	None	None
Bank Savings Accounts	N/A	25%	None
Federal Agencies	5 years	75%	None
Commercial Paper	180 days	20%	None
Negotiable Certificates of Deposit	180 days	20%	None
Re-Purchase Agreements	180 days	20%	None
Corporate Debt	5 years	25%	None

B. Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of all investments. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investment maturity:

		Re	maining Matu	(in Months)	
		1	2 Months		13-48
Investment Type	Totals		or Less		Months
Local Agency Investment Fund	\$ 2,032,413	\$	2,032,413	\$	-
Totals	\$ 2,032,413	\$	2,032,413	\$	-

*Not subject to categorization

Note 2: <u>Cash and Investments (Continued)</u> A. <u>Investments Authorized by the California Government Code and the Entity's Investment Policy (Continued)</u>

C. Concentrations of Credit Risk

The investment policy of the District contains limitations on the amount that can be invested in any one issuer. There are no investments to one issuer exceeding those limits.

D. Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposit or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment of collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits; The California Government Code requires that a financial institution secured deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the government unit). The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure the District's deposits by pledging first deed mortgage notes having a value of 150% of the secured public deposits.

At June 30, 2022, the District's deposits balance was \$225,046 and the carrying amount was \$217,081. The difference between the bank balance and the carrying amount was due to normal outstanding checks and deposits in transit. Of the bank balance all was covered by the Federal Depository Insurance or by collateral held in the pledging bank's trust department in the District's name.

LAIF is included in the State's Pooled Money Investment Account. The total amount invested by all public agencies in the State's Pooled Money Investment Account approximates \$231.57 billion. Of the \$231.57 billion managed by the State Treasurer, 100% is invested in non-derivative financial products and 1.88% is invested in structured notes and asset-backed securities. The Local Investment Advisory Board (Board) has oversight responsibility for LAIF. The Board consists of five members as designated by state statute.

Investments are accounted for in accordance with the provisions of GASB Statement No. 31, which requires governmental entities to report certain investments at fair value in the balance sheet and recognize the corresponding change in fair value of investments in the year in which the change occurred. The District reports its investments at fair value based on quoted market information obtained from fiscal agents or other sources if the change is material to the financial statements.

Note 3: Assessments and Accounts Receivable

Major receivable balances for both governmental and business-type activities include assessments for services and assessments for services placed on the Siskiyou County tax rolls. There is no allowances for uncollectible accounts as management feels all amounts are collectible. Charges for sewer and water services are recorded when earned. Services provided but unbilled at year-end have been included in the accompanying financial statements.

Note 4: Capital Assets

Capital asset activity for the year ended June 30, 2022 was as follows:

		Balance			Ret	tirements/		Balance
Governmental Activities	Ju	ıly 1, 2021	A	dditions	Ad	justments	Ju	ne 30, 2022

Business- type activities capital assets, net	\$	3,903,537	\$	(237,905)	\$	_	\$	3,665,632

Note 5: Leases Receivable

The District derives a portion of its revenue from the rental of real property based on a fixed lease amount to an organization providing health care and medical related services and for District land used for a cellular tower. Two leases are treated as finance leases for accounting purposes under Governmental Accounting Board Statement No. 87. The initial lease terms have an assumed start date of July 1, 2021 for periods between three and one half and seven and one half remaining years, and can be terminated by the lessee at any time and without cause by giving the District written notice of termination. Early termination is not expected. The rents ranged from \$1,240 to \$5,022 per month and the cell tower lease increases by 3% annually.

Lease receivables consist of an agreement with the health care and medical service provider and the cell tower operator for their right-to-use of a portion of facilities owned by the District. The calculated interest rate used is based on an assumed 3% borrowing rate. For the fiscal year ended June 30, 2022, the District recognized \$77,393 in lease revenue and \$7,925 in interest revenue related to these leases.

Note 5: Leases Receivable (Continued)

											Due	in
	Ba	alance			Ret	irements/]	Balance	Du	e within	More T	han
	7/1	/2021	A	dditions	Ad	justments	6	/30/2022	Or	ne Year	One Y	ear

Total	\$	786,065	\$	46,309	\$	(639,088)	\$	193,286	\$	29,502

Note 7: Defined Benefit Pension Cost-Sharing Employer Plan

A. General Information about the Pension Plans

Plan Descriptions – All qualified non-safety, safety Police and safety Fire, permanent and probationary employees are eligible to participate in the District's Miscellaneous and Safety Employee Pension Plans, cost-sharing multiple employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website. Effective August 26, 2019 Local Police Officers were added as members of the retirement system.

Benefits Provided – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire between ages 55 and 62, dependent upon the individual plan criteria, with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plans' provisions and benefits in effect at June 30, 2022, are summarized as follows:

	Μ	iscellaneous	Safety	Police
	Prior to	On or after	Prior to	On or after
Hire date	January 1, 201	3 January 1, 2013	January 1, 2013	January 1, 2013
Benefit formula	2.0% @ 55	2.0% @ 62	2.7% @ 57	2.7% @ 57
Benefit vesting s chedule	5 years servic	e 5 years service	5 years service	5 years service
Benefit payments	monthly for lif	e monthly for life	monthly for life	monthly for life
Retirement age	50-57	52-67	52-57	52-57
Monthly benefits, as a % of compensation	1.5% to 2.0%	1.0% to 2.0%	2.20% to 2.70%	2.20% to 2.70%
Required employee contribution rates	7.00%	6.75%	12.00%	13.00%
Required employer contribution rates	10.34%	7.59%	12.12%	13.13%
		Safe ty F	lire	
		Prior to	On or after	
Hire date		January 1, 2013	January 1, 2013	
Benefit formula		2.0% @ 55	2.0% @ 62	
Benefit vesting s chedule		5 years service	5 years service	
Benefit payments		monthly for life	monthly for life	
Retirement age		50-57	52-67	
Monthly benefits, as a % of compensation		1.5% to 2.0%	1.0% to 2.0%	
Required employee contribution rates		NA	12.50%	
Required employer contribution rates		NA	12.47%	

Contributions – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

Note 7: Defined Benefit Pension Cost-Sharing Employer Plan (Continued)

For the year ended June 30, 2022, the contributions recognized as part of pension expense for each Plan were as follows:

Contributions-employer miscellaneous classic	\$ 113,719
Contributions-employer miscellaneous-PEPRA	18,630
Contributions-employer PD safety classic	10,661
Contributions-employer PD safety PEPRA	11,784
Contributions-employer Fire safety PEPRA	12,615

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2022, the District reported net pension liabilities for its proportionate shares of the net pension liability of the Plan as follows:

	Proporti	onate share of		
	Net per	Net pension liability		
		Asset)		
Miscellanous Plan	\$	112,578		
Safety Plan	\$	(31,245)		

The District's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2020, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019 rolled forward to June 30, 2020 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

The District's proportionate share of the net pension liability as of June 30, 2021 and 2022 reporting dates were as follows:

	Miscellaneous	Safety
Proportion - June 30, 2021	0.02363%	0.00001075%
Proportion - June 30, 2022	0.00593%	0.00089000%
Change - Increase (Decrease)	-0.01770%	0.00087925%

For the year ended June 30, 2022, the District recognized pension expense of -\$65,066. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		ed Outflows esources	Deferred Inflows of Resources		
Differences between expected and actual experience	\$	12,624	\$	(5,338)	
Changes of assumptions					
Net difference between projected and actual earnings		18,597		(98,275)	
Changes in proportion				(520,965)	
Changes in proportionate share of contributions		52,017			
District contributions subsequent to the measurement date	_	167,309			
Total	\$	250,547	\$	(624,578)	

\$167,309 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023.

Note 7: Defined Benefit Pension Cost-Sharing Employer Plan (Continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Measurement Period	
Year Ended June 30:	
2023	\$ 185,389
2024	181,797
2025	152,113
2026	22,041

Actuarial Assumptions – The total pension liabilities in the June 30, 2018 actuarial valuations were determined using the following actuarial assumptions:

Valuation Date Measurement Date	June 30, 2020 June 30, 2021
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Payroll Growth	3.00%
Projected Salary Increase	3.3% - 14.2% (1)
Investment Rate of Return	7.15%

Discount Rate – The discount rate used to measure the total pension liability was 7.15% for each Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15 percent will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

Note 7: Defined Benefit Pension Cost-Sharing Employer Plan (Continued)

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

		Real Return Years 11+ (2)	
50.0%	4.80%	5.98%	
28%	1.00%	2.62%	
0%	0.77%	1.81%	
8%	6.30%	7.23%	
13%	3.75%	4.93%	
1%	0.00%	-0.92%	
	28% 0% 8% 13%	28%1.00%0%0.77%8%6.30%13%3.75%	

(1) An expected inflation of 2.00% used for this period

(2) An expected inflation of 2.92% used for this period

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the District's proportionate share of the net pension liability for each Plan, calculated using the discount rate for each Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Discou	int Rate -1%	Curre	nt Discount	Disco	unt Rate +1%	
	((6.15%)		e (7.15%)	(8.15%)		
Miscellaneous	\$	268,861	\$	112,578	\$	(16,618)	
Safety	\$	62,635	\$	(31,245)	\$	2,948	

Note 8: Money Purchase Pension Plan

The Lake Shastina Community Services District Money Purchase Pension Plan was adopted for the purpose of rewarding long and loyal service to the Police Officer employee's by adding additional financial security at retirement. Fire department employees were subsequently added. Incidental benefits are provided in the case of disability, death or termination of employment. The Plan is a type of qualified retirement plan commonly referred to as a money purchase pension plan. Since the principal purpose of the plan is to provide benefits at normal retirement age, the principal goal of the investment of the funds in the plan should be both security and long-term stability with moderate growth commensurate with the anticipated retirement dates of participants. Investments, other than "fixed dollar" investments, should be included among the plan's investments to prevent erosion by inflation. However, investments should be sufficiently liquid to enable to plan, on short notice, to make some distributions in the event of death or disability of a participant. Employees are generally not taxed on the amounts the District contributes to the Plan on their behalf until they withdraw these amounts from the Plan.

During the 2019/20 fiscal year the City adopted a safety plan with CalPERS for the Police Department employee's. See note 6 to these financial statements for information on the safety member Defined Benefit Pension Plan with CalPERS.

Note 9: Interfund Transactions

Transfers are used to (1) move revenues from the fund required by statute or budget to collect them to the fund required by statute or budget to expend them, and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Receivables and Payables

Balances representing lending/borrowing transactions between funds outstanding at the fiscal year end are reported as either "due from/due to other funds" (amounts due within one year), "advances to/from other funds" (non-current portions of interfund lending/borrowing transactions), or "loans to/from other funds" (long-term lending/borrowing transactions evidenced by loan agreements). Advances and loans to other funds are offset by a fund balance reserve in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

Note 10: Related Party Transaction

The District prepares, bills and collects the association dues for the Lake Shastina Property Owner's Association (LSPOA). The District also processes bills, payroll and provides other financial and administrative services for the LSPOA. The LSPOA utilizes office space in the District administration building, has a separate Board of Directors, is a separate legal entity and is not reported as a component unit of Lake Shastina Community Services District as defined by its reporting entity. The amount of payroll, and services and supply reimbursed by LSPOA to the District during the 2021/22 fiscal year was \$114,832. Furthermore the LSPOA general manager is a Board Member of Lake Shastina Community Services District, and the Lake Shastina Community Services District general manager is a Board Member of the LSPOA.

Note 11: Stewardship, Compliance and Accountability

A. Deficit Fund Balances

At June 30, 2022, the Cops Fund had a negative fund balance of \$115,133. The deficit balance is expected to be corrected upon reimbursements from other funds, or from future revenue over expenditures.

B. Budget Variances

The fire fund operating expenses were \$180,853 over the legally adopted budget.

Note 12: Revenue Limitations Imposed by California Proposition 218

Proposition 218, which was approved by the voters in November 1996, regulates the District's ability to impose, increase, and extend taxes and assessments. Any new increase or extended taxes and assessments subject to the provisions of Proposition 218, requires voter approval before they can be implemented. Additionally, Proposition 218 provides that these taxes and assessments are subject to voter initiative and may be rescinded in the future years by the voters.

Note 13: Commitments and Contingencies

Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

In the normal course of business, the District is subject to various lawsuits. Defense of lawsuits is typically handled by the District's insurance carrier and losses, if any, are expected to be covered by insurance.

Note 13: Commitments and Contingencies (Continued)

COVID 19

In December 2019, a novel strain of coronavirus has spread around the world resulting in business and social disruption. The coronavirus was declared a Public Health Emergency of International Concern by the World Health Organization on January 30, 2020. The operations and business results of Lake Shastina Community Services District could potentially be adversely affected by this global pandemic. The extent to which the coronavirus may impact business activity or investment results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions required to contain the coronavirus. The District has not included any contingencies in the financial statements specific to this issue.

Commitments

The District had professional service commitments as of June 30, 2022 including \$246,086 remaining on an engineering contract for the water planning study which is expected to be reimbursed with a SWRCB grant.

At June 30, 2022 the District had a \$20,000 credit limit on a Visa credit card.

Note 14: Subsequent Event

Subsequent to fiscal year end the District purchased of a fire utility truck for \$57,717. The District also purchased a dump truck for \$118,577 that was split between the water and sewer funds.

Subsequent events were evaluated through June 7, 2023, the date these financial statements were available for distribution.

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2022

Budgets and Budgetary Accounting

As required by the laws of the State of California, the District prepares and legally adopts a final balanced operating budget. Public hearings were conducted on the proposed final budget to review all appropriations and the sources of financing. Because the final budget must be balanced, any shortfall in revenue requires an equal reduction in financing requirements. At the fund level, actual expenditures cannot exceed budgeted appropriations.

Budgets for the general, and special revenue funds are adopted on the modified accrual basis of accounting. The budgets for the general and special revenue funds are the only legally adopted budgets. Budgets for the proprietary funds are used for management and control purposes only.

The budgetary data presented in the accompanying financial statements includes all revisions approved by the Board of Directors.

Lake Shastina Community Services District

Management Report

June 30, 2022

LARRY BAIN, CPA AN ACCOUNTING CORPORATION

2148 Frascati Drive, El Dorado Hills, CA 95762 / 916.601-8894 <u>Ipbain@sbcglobal.net</u>

COMMUNICATION OF SIGNIFICANT DEFICIENCIES AND MATERIAL WEAKENESSES

To the Board of Directors Lake Shastina Community Services District Weed, California 96094

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Lake Shastina Community Services District as of and for the fiscal year ended June 30, 2022, and have issued our report thereon dated June 7, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lake Shastina Community Service District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lake Shastina Community Services District internal control. Accordingly, we do not express an opinion on the effectiveness of Lake Shastina Community Services District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all such deficiencies have been identified. We consider findings FS 2022-001, FS 2022-002 and FS 2022-003 in the following schedule of findings to be deficiencies in internal control that we considered a material weaknesses.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider finding FS 2022-004 and FS 2022-005 in the following schedule of findings to be significant deficiencies in the District's internal control:

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

The Lake Shastina Community Service District's separate written response to the significant deficiencies identified in our audit and any follow up for subsequent year corrections has not been subjected to the audit procedures applied in the audit of the financial statements and accordingly, we do not express an opinion on the responses.

This report is intended solely for the information and use of management, the Board of Directors, the Siskiyou County Auditor Controller's Office, and the California State Controller's Office, and is not intended to be and should not be used by anyone other than these specified parties.

Larry Bain, CPA

Larry Bain, CPA, An Accounting Corporation June 7, 2023

LAKE SHASTINA COMMUNITY SERVICES DISTRICT FINDINGS AND RECOMMENDATIONS JUNE 30, 2022

Deemed to be Significant Deficiencies and Material Weaknesses

FS 2022-001: During our testing of strike teams we noted the District was underpaying the strike team members. The time and one half hourly rate received from Cal Fire for firefighters was \$57.21 for firefighters and \$62.09 for the captain, however the District paid the firefighters \$35 per hour and paid the captain \$38 per hour resulting in an underpayment to the firefighters of \$22.21 per hour and an underpayment to the captain of \$24.09 per hour. It is acceptable for a District to pay less than the reimbursed rate when the District incurs additional cost for backfilling positions when a firefighter is scheduled for a shift while on a strike teams response, however we did not observe and the District could not provide documentation that backfill costs were incurred for the strike team incidents tested. We have noted this condition in prior audits and this is a condition for the qualified opinion in the independent auditor's report.

We noted that the district adopted a strike team pay and station coverage policy on July 14, 2021 after the prior audit year tested, however there wasn't sufficient evidence to support that the District was paying the difference between the reimbursed rate and the pay rate for backfilled positions. Furthermore the total amount received for strike team payroll during the 2021/22 fiscal year was \$777,250, and the total payroll for strike team members was \$525,445 indicating the district made a profit of \$251,805. The intent of the mutual aid agreement is for the district to cover their costs and not to make a profit.

Recommendation: The District should review the amount that was reimbursed for strike team members versus the amount paid out. The District should then take action to reimburse underpaid wages.

District Response: Lake Shastina Community Service District is aware of the concerns related to Strike Team pay for its volunteer fire department and has put in place policies and safeguards to ensure that all the laws and regulations are followed.

FS 2022-002: As of June 30, 2021 we noted the Cops Grant fund had a negative cash balance of \$27,301, negative fund balance of \$115,133 and a due to other fund liability of \$118,469. We have noted these conditions in past audits.

Recommendation: Because the Cops Grant fund operates with a restricted allocation each year, any shortage should be made up from the Police department fund. We recommend the District review the activity in the Cops Grant fund and resolve the due to other fund liability, the negative cash and the negative fund balance.

District Response: The District is working alongside a contracted CPA firm to review and refine this area of operation and accountability to ensure compliance moving forward in FY 2023.

FS 2022-003: During our audit we noted the Board of Directors did not approve the contract with AWM for concrete work at the new fire building. Furthermore there was no written contract entered into for this work which is a violation of Contractors State License Board regulations. We also did not observe that change orders were approved. The original agreement appears to have been for \$107,761 and the amount paid was \$112,015.

We noted the Board of Directors approved the purchase of a metal building based on current quotes for the new fire department building. The approval did not name the vendor and did not indicate the amount approved. Furthermore there was no written contract entered into with the contractor JB Steel Construction as required by the Contractors State License Board. The amount paid for the metal building was \$96,800.

Recommendation: We recommend the Board be more descriptive when approving contracts by naming the vendor that was approved and the not to exceed amount of the contract. We recommend the District have procedures in place to ensure that written contracts are obtained prior to proceeding with contracted work.

District Response: The District is in the process of reevaluating financial policies and procedures, especially in light of migration to a new accounting software system and resultant processes, and to ensure in keeping with evolving State laws and regulations.

LAKE SHASTINA COMMUNITY SERVICES DISTRICT FINDINGS AND RECOMMENDATIONS JUNE 30, 2022

Deemed to be Significant Deficiencies and not Material Weaknesses

FS 2022-004: During our testing of cash we noted several outstanding items on the bank reconciliation that were unsupported. We also did not see an indication on the bank reconciliation as to when it was prepared, who prepared it and if it had been reviewed by another person familiar with district banking activity.

Recommendation: We recommend the District review and clear out any items on the bank reconciliation that are not supported, or that are stale dated. We also recommend indicating on the bank reconciliation who prepared it, when it was prepared and who reviewed it.

District Response: Issues noted on the bank reconciliation, where not irrelevant, were not deemed material or as a result of lack of internal control processes. The issues were found to be the result of several, on-going accounting software processing issues noted by District staff throughout fiscal year ending June 30, 2022 and previous fiscal years. The District is currently in the process of completing conversion to a new accounting software system which will allow for improved internal control and accounting function processes for fiscal year ending June 30, 2023 and future year-ends.

FS 2022-005: During our testing of capital assets we noted Police Department vehicle #8 was sold without advertising, and the District did not remove the vehicle from the capital asset schedule provided.

Recommendation: When selling District assets, we recommend advertising them for sale. We also recommend removing sold and surplused assets from the capital asset schedule.

District Response: The District is in the process of reevaluating financial policies and procedures to strengthen transparency and record keeping needs as they impact the accurate accounting of fixed assets.

June 12, 2023

To the <u>Board of Directors</u> <u>Lake Shastina Community Services District</u>

We have audited the financial statements of governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of <u>Lake Shastina Community Services District</u> for the year ended <u>June 30, 2022</u>, and have issued our report thereon dated <u>June 7, 2023</u>. Professional standards require that we provide you with the following information related to our audit.

Our responsibility under U.S.Generally Accepted Auditing Standards

As stated in our engagement letter dated October 14, 2022, our responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

Planned Scope and Timing of the Audit

We performed the audit and issued the report in accordance with the scope and timing communicated to the Board in the letter dated October 14, 2022.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by <u>Lake Shastina Community Services District</u> are described in Note <u>1</u> to the financial statements. The application of existing policies was changed during <u>the 2022</u> <u>fiscal year</u> to implement the provisions of GASB Statement #87 for leases. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. There were no prior period adjustments made in the financial statements..

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate(s) affecting the financial statements was (were):

Management's estimate of the <u>useful lives of assets for calculating depreciation expense</u> is based on GFOA recommended useful lives. We evaluated the key factors and assumptions used to develop the <u>useful life estimates</u> in determining that it is reasonable in relation to the financial statements taken as a whole.

Estimates for allocating administrative assets, liabilities, revenues and expenses are allocated to each fund based on percentages that are determined by management and the governing board of the District.

Deferred outflows of resources-pensions, deferred inflows of resources-pensions and net pension liability are reported based on actuarially determined calculations.

Difficulties Encountered in performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. All material misstatements were corrected by management.

Disagreements with Management

For purpose of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significance to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 7, 2023.

Management Consultation with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Observations

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the <u>Board of Directors</u> and management of <u>Lake Shastina</u> <u>Community Services District</u> and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Larry Bain, CPA
